

Usability Testing & Analysis Report – Event Hub

1. Introduction

This report presents the usability testing conducted on the Event Hub interactive prototype. The objective of the study was to evaluate the effectiveness, usability, and overall user experience of the application.

2. Test Objectives

The testing aimed to:

- Evaluate navigation efficiency.
- Measure task completion success.
- Identify usability issues.
- Gather user feedback.
- Recommend design improvements.

3. Test Participants

A total of 3 participants were selected for usability testing.

Participant Profiles:

- Student
- Casual mobile user
- Frequent event attendee

4. Test Scenarios

Participants were asked to complete the following tasks:

Scenario 1

Log in to the application.

Scenario 2

Browse available events.

Scenario 3

View event details.

Scenario 4

Register for an event.

Scenario 5

Navigate to the payment page.

5. Observations

Positive Findings

- Users easily understood the navigation flow.
- Event information was clearly presented.
- Registration process was straightforward.

Issues Identified

- Search bar could be more visually prominent.
- Event cards could include additional spacing.
- Confirmation feedback after registration was missing.

6. User Feedback

Participant 1

"The application was easy to navigate and visually appealing."

Participant 2

"I could quickly find events, but the search bar could stand out more."

Participant 3

"Design can be improved."

7. Design Improvement Suggestions

Recommendation 1

Increase the visibility of the search component.

Recommendation 2

Add a registration success screen.

Recommendation 3

Improve desktop interaction feedback.

Recommendation 4

Introduce animations.

8. Results Summary

- Task Completion Rate: 100%
- Navigation Success Rate: 100%
- User Satisfaction: High

9. Learning Outcomes

Through this project, I gained practical experience in:

- Usability testing
- User observation
- Feedback collection
- Design evaluation
- Iterative design improvement

10. Conclusion

The testing demonstrated that the Event Hub prototype provides a clear and user-friendly experience. The collected feedback highlighted minor improvements that can further enhance usability and overall user satisfaction.
